

## **ICAP Side Event at COP18 in Doha, Qatar**

### **Latest Developments of Emissions Trading Around the World: Updates and Outlook**

**3 December 2012, 10.30 AM – 12.30 PM**

EU Pavilion, Room Lefkosia, Hall 3  
Qatar National Convention Centre, Doha

Emissions trading schemes (ETS) are spreading around the globe: governments from developed and developing countries alike have implemented or are in the process of designing cap-and-trade schemes to help achieve greenhouse gas emissions reductions.

The event will feature short presentations and a panel discussion of government representatives and carbon market experts showcasing ETS developments from around the world. Speakers will be experts from a mix of jurisdictions with recent developments in ETS legislation, implementation or plans, selected to give a representative sample of developments worldwide. The discussion will also highlight prospects for domestic ETS in the near future. Presentations will be followed by an open discussion and Q&A.
