

## USA - Oregon

### General Information

Summary	<p><b>Status:</b> ETS under consideration</p> <p><b>Jurisdictions:</b> USA - Oregon</p> <p>In February 2017, the Oregon Department of Environmental Quality (DEQ) published a study on designing a Cap-and-trade program in Oregon that would be compatible to link with Western Climate Initiative (WCI) jurisdictions. The study was mandated by Senate Budget Bill 5701. The study provides considerations for implementing a market-based greenhouse gas (GHG) reduction program in Oregon. It focuses on the methods to minimize any negative effects on business, disadvantaged communities and rural areas. DEQ also considered how a Cap-and-trade program would interact with Oregon's existing climate policies.</p> <p>Oregon is reconsidering an emissions trading system (ETS), after a Bill (SB 1574) was rejected in the 2016 legislative session. In January 2017, a Bill (SB 557) was introduced in the Senate to require DEQ to adopt a GHG Cap-and-invest program, as well as to set statewide GHG emissions goals for 2025, and limits for 2035 and 2050. No vote has been taken on this bill yet.</p> <p>An annual GHG emissions reporting program is in place since 2008, mainly covering industry and waste, as well as fuel distributors and electricity suppliers.</p> <p>Oregon has been a member of the Pacific Coast Collaborative (PCC) since 2008. In 2013 Oregon has signed a non-binding agreement with the other members of the PCC (i.e. the Federal States of Washington and California, and the Canadian province of British Columbia) to work together for climate protection.</p> <p><a href="#">DEQ Report – Considerations for Designing a Cap-and-Trade Program in Oregon (2017)</a></p> <p><a href="#">Senate Bill 1574 (2016)</a></p> <p><a href="#">Senate Bill 557 (Introduced in January 2017)</a></p>										
Overall GHG emissions (excluding LULUCF)	<p><a href="#">Greenhouse Gas reporting Homepage - DEQ</a> <b>Emissions:</b> 63.4 MtCO<sub>2e</sub> (million metric tons) MtCO<sub>2e</sub> (2015) <a href="#">Pacific Coast Action Plan on Climate Energy</a></p>										
Overall GHG emissions by sector	<table border="1"> <thead> <tr> <th>Sector Name</th> <th>MtCO<sub>2e</sub></th> </tr> </thead> <tbody> <tr> <td>Transportation</td> <td>23.2</td> </tr> <tr> <td>Residential and Commercial</td> <td>22.2</td> </tr> <tr> <td>Industrial</td> <td>12.8</td> </tr> <tr> <td>Agriculture</td> <td>5.2</td> </tr> </tbody> </table>	Sector Name	MtCO <sub>2e</sub>	Transportation	23.2	Residential and Commercial	22.2	Industrial	12.8	Agriculture	5.2
Sector Name	MtCO <sub>2e</sub>										
Transportation	23.2										
Residential and Commercial	22.2										
Industrial	12.8										
Agriculture	5.2										
Overall GHG reduction target	<p><b>By 2020:</b> 10% reduction from 1990 GHG levels. <b>By 2050:</b> at least 75% reduction from 1990 GHG levels.</p>										
Type of ETS	No information available yet.										

Cap and trajectory	No information available yet.
Carbon Price	<i>Current Allowance Price (per t/CO<sub>2</sub>e)</i> : No information available yet.

## ETS Size

Emissions covered by the ETS	No information available yet.
GHG covered	No information available yet.
Sectors covered and thresholds	No information available yet.
Number of liable entities	No information available yet.
Point of regulation	No information available yet.

## Phases & Allocation

Compliance period	No information available yet.
Trading period	No information available yet.
Allocation	No information available yet.

## Flexibility

Banking and borrowing	No information available yet.
Offsets and credits	No information available yet.
Provisions for price management	No information available yet.

## Compliance

Monitoring, Reporting, Verification (MRV)	No information available yet.
Enforcement	No information available yet.

## Other Information

Institutions involved	Oregon Department of Environmental Quality
Linkage with other schemes	No information available yet.

In line with ICAP's mandate, the ICAP ETS map exclusively covers cap-and-trade systems for greenhouse gas emissions. Information displayed on the map is regularly updated by ICAP Secretariat staff based on official and public information as far as possible and subject to annual peer review by government representatives from the covered systems. Although the information contained in the map is assembled with utmost care, ICAP cannot be held liable for the timeliness, correctness and completeness of the information provided.
